## **Musica™ MU5066 KP50 and MU5066 KP25 Firmware Upgrade v2.2**

### **Changes in Firmware Upgrade v2.2**

A new feature has been added in firmware upgrade v2.2 for the *Musica* MU5066 KP50 and MU5066 KP25 keypads. This new version of firmware allows you to lock the *Musica* keypad.\*

To lock the keypad, press the "Menu" button, then the "0, 9, 8, 7" keys on the keypad. To unlock the keypad, press the "Menu" button, then the "0, 9, 8, 7" keys on the keypad.

To check to see what firmware version your keypad is operating on, cycle the power on the keypad, and the version of firmware will appear in the lower right hand corner of the LCD display on the keypad.

\* This new feature, available on the MU5066 KP50 and MU5066 KP25 keypads, is especially useful for commercial installations such as bars, restaurants, or other high traffic locations where the facility manager wants to limit access to the source selection, volume controls, and menu controls to just certain individuals.
