**NETSTREAMS DIGILINX AUDIO, VIDEO & CONTROL SYSTEM HONORED BY
CONSUMER ELECTRONICS ASSOCIATION AND AUDIOHOLICS.COM**

IP-Based *DigiLinX* Wins 2008 Innovations Award and 2007 Consumer Excellence Award

AUSTIN, TX, – November 14, 2007 – *NetStreams™*, the global leader in networked audio/video systems based on Internet Protocol (IP), announced that its *DigiLinX* Audio, Video and Control system has been named the recipient of two industry awards. The Consumer Electronics Association (CEA®) has selected *DigiLinX* as a 2008 CES Innovations Design and Engineering Award winner, while the audio/video news and views enthusiast website Audioholics.com named *DigiLinX* as its 2007 Consumer Excellence Award winner. These awards are presented annually to recognize the most advanced and forward-thinking consumer electronics products.

DigiLinX is the world's only fully IP-Based system for multi-zone distribution of *uncompressed* high definition video and audio. Employing *NetStreams'* patent-pending technology, yet utilizing industry-standard TCP/IP digital network protocol, *DigiLinX* conveys both content and control signals over a single CAT5 cable. *DigiLinX* enables builders, installers, and end-users to realize the cost and performance benefits of digital convergence, including the ability to interface with other IP-controlled systems, e.g. lighting, HVAC, security, etc.

The
Ultimate
IP A/V
Experience.

“The *DigiLinX* Audio, Video and Control system is another great example of how IP technology improves and simplifies the home entertainment experience,” said Kevin Reinis, President and CEO of *NetStreams*. “We are honored to receive these awards.”

NetStreams’ DigiLinX Audio, Video and Control system will be part of the Innovations Design and Engineering Showcase at the 2008 International CES, which runs January 7-10, 2008 in Las Vegas, Nevada. Audioholics recently announced it winners on its popular web site.

About *NetStreams*

Headquartered in Austin, Texas, *NetStreams* delivers the Ultimate IP A/V Experience by distributing high definition audio and video over TCP/IP networks. *NetStreams’* products, designed for commercial and residential use, offer unprecedented levels of performance, functionality, simplicity, reliability, and expandability. By combining audio/video content, meta-data and control signals into one stream and incorporating industry standards, *NetStreams* solutions are a smart investment. *NetStreams* is enabling the future of IP A/V – today.
