## **INFOCOMM INTERNATIONAL NAMES MIKE WEEMS OF NETSTREAMS AS**

### **INSTRUCTOR EMERITUS**

**AUSTIN, Texas – May 30, 2007 - NetStreams™**, the global leader in networked entertainment systems based on Internet protocol (IP) technology, announced today that Mike Weems, Director of Training, has been awarded status as Instructor Emeritus for InfoComm International, the trade association of the professional audiovisual and information communications industries. Weems will be awarded a certificate for his service and given special recognition at the InfoComm tradeshow in June.

“On behalf of his co-workers at *NetStreams*, I congratulate Mike on this honor,” said Kevin Reinis, president and CEO. “We are pleased and fortunate to have such a dedicated professional working with us.”

The InfoComm Faculty Program, created to recognize the contributions of its corps of dedicated instructors and their professional development, provides students at InfoComm Academy with the highest quality of training from the industry’s technical experts. Weems will also be teaching two courses at the upcoming InfoComm show in Anaheim – a course on AV / IT integration (IPD8) as well as a course on *NetStreams’* new IP-Based Video Distribution system at the show.

The honorary Emeritus role is presented to an individual who has made a major impact on the InfoComm International education and training programs and who still provides consultation services and guidance to the Professional Education and Training Committee as well as the InfoComm International staff.

- more -

Throughout a longstanding relationship with InfoComm, Weems has taught over 35 classes at the InfoComm International Institute for Professional Development as well as seminars at InfoComm shows. Weems has previously been named InfoComm International's Educator of the Year, has served as Chair of the Professional Education and Training Committee (PETC) for four years and, most recently, was honored with the Association's Fred Dixon Service in Education Award. Weems is also the editor of the 2003 *The Basics of Audio and Visual Systems Design*, published by InfoComm.

Weems has worked in the audiovisual industry for over 35 years in the areas of production, postproduction, facility management, system design, sales and technical instruction. Prior to joining *NetStreams*, he was a Senior Technical Trainer for InFocus® Corporation as well as its Consultant Manager. Weems has also served as District Manager and Market Development Specialist with Sony Electronics Inc. where he supported the professional video product line. He is a Certified Technology Specialist (CTS) and Microsoft Certified Professional (MCP).

### ***About NetStreams***

Headquartered in Austin, Texas, *NetStreams* is the undisputed world leader in digital entertainment networks based on Internet protocol (IP) technology. *NetStreams'* IP-Based and IP-controlled systems, designed for residential and commercial use, handle any number of digital or analog sources and deliver uncompressed content, including high definition audio and video, to an unlimited number of zones. By combining content and control signals in one data stream, *NetStreams* systems offer new levels of affordability, simplicity, reliability, and expandability, benefiting both installers and end-users with lower costs for installation, set-up, and support.

By utilizing its patent-pending *StreamNet™* technology, *NetStreams* systems enable true plug-n-play integration with other makers' products for entertainment, automation, security, and communications, as well as remote access for control, management, and software upgrades. They provide a stable, easily expandable platform for future products (hardware and software) and new applications. *NetStreams* is committed to utilizing cutting-edge human factors engineering to create entertainment systems that are truly user-friendly and future compatible. *NetStreams* is enabling the future of home entertainment today.
