NetStreams Receives Network Products Guide 2009 Product Innovation Award

NETSTREAMS DIGILINX IP AUDIO/VIDEO DISTRIBUTION SYSTEM SELECTED A WINNER IN PRODUCT INNOVATION FOR VIDEO

Austin, TX – May 18, 2009 – *NetStreams, the leader in IP-Based Networked Audio/Video distribution*, announced that its innovative **DigiLinX Networked Audio/Video System** has been named by Network Products Guide, a winner of the 2009 Product Innovation Award. This annually acclaimed award recognizes and honors vendors from all over the world with innovative and groundbreaking products that are setting the bar higher for others in all areas of information technology.

NetStreams DigiLinX IP Video solution delivers a new paradigm for video distribution across a broad spectrum of applications. The DigiLinX solution is used in applications from digital signage and corporate video distribution to network operations centers and government facilities, to large venues and hospitality & entertainment.

NetStreams is the global leader in digital media networks based on Internet protocol (IP) technology. *NetStreams* IP-Based and IP-Controlled systems, designed for commercial and residential use, handle virtually any number of digital or analog sources and deliver content, including uncompressed audio and high definition video, to virtually unlimited number of zones. Most importantly, any zones playing the same source will be perfectly synchronized, to less than 1 millisecond. By combining content and control signals in one data stream, *NetStreams* systems offer new levels of simplicity, reliability, and expandability, benefiting both integrators and end users with lower costs for installation, set-up and support. "The entire *NetStreams* team is proud to have **DigiLinX** named a 2009 Network Products Guide winner" said Kevin Reinis, President and CEO of *NetStreams*. "The participants in the Network Products Guide represent some of today's most exciting products and concepts, which will shape the future of information technology. Having **DigiLinX** selected from the entrants is exciting, and a great reward for all the hard work and dedication that every member of the *NetStreams* team has put into our solution."

"Innovation is clearly an important factor to greater success and has the most impact on staying competitive," says Rake Narang, editor-in-chief of Network Products Guide. "Innovative products such as DigiLinX are bringing improvements in digital media networks based on Internet protocol (IP) technology.
