NETSTREAMS LAUNCHES REDESIGNED WEB SITE TO REFLECT COMPANY

GROWTH IN RESIDENTIAL, COMMERCIAL & OEM SEGMENTS

New Website Offers Dealers, Installers and Partners with Up-To-Date Information on Company's Products

AUSTIN, TX – October 24, 2006 – *NetStreams*[®], the global leader in networked entertainment systems based on Internet Protocol (IP) technology, has announced the launch of its redesigned website today. Part of an overall site design that is cleaner, friendlier and provides for easy navigation, it was done as part of *NetStreams'* continued commitment to offer its dealers, installers and partners up-to-date information on the company's products. The site's URL is www.netstreams.com.

"*NetStreams* continues to grow at a rapid pace – both in the residential installation market and in other vertical markets," said Petro Shimonishi vice president of marketing and product management for *NetStreams*. "This new website reflects our overall technological leadership in IP-Based distributed entertainment and provides a resource for all vertical markets -- including the commercial installation and OEM markets -- additional markets where *NetStreams'* solutions and technologies are attractive and gaining ground."

To simplify navigation, the home page is designed to easily take the visitor to view commercial-oriented products and solutions, residential-oriented products and solutions, or to learn more about *NetStreams'* technologies.

The site also now provides case studies as to how *NetStreams* products are easy to use, easy to install, upgrade, and support in those vertical markets. Shimonishi said the new website better communicates the value proposition of the company's products to end-customers, as well as showcases some of the unique features of *NetStreams'* products and systems. "The solutions section of the website really brings out the benefits of the system by showcasing some of the applications to the end customer."

IP-Based
Distributed
Entertainment
Company

The new *NetStreams*' website also features customer-specific password protected sections to support segmentation of materials by customer, so commercial dealers will have access to commercial specific information, while residential dealers will have access to residential specific information, and OEM partners will have access to pertinent OEM information.

About NetStreams

Headquartered in Austin, Texas, *NetStreams* is the world leader in digital entertainment networks, based on Internet protocol (IP) technology. *NetStreams*' IP-Based systems are designed for residential and commercial use, and offer new levels of affordability, simplicity, reliability, and expandability, benefiting both installers and end-users with lower costs for installation and set-up, with an intuitive and rich user experience.

By utilizing its patent-pending *StreamNet*[™] technology, *NetStreams* systems enables true plug-n-play integration with other products for entertainment, automation, security, and communications. *NetStreams* is committed to utilizing cutting-edge human factors engineering to create entertainment systems that are truly user-friendly and future compatible. *NetStreams* is enabling the future of IP-Based entertainment today.
