**NETSTREAMS IP AUDIO/VIDEO SYSTEM WINS PERFECT VISION MAGAZINE'S
EDITOR'S CHOICE AWARD**

**Publication Names IP-Based DigiLinX "Most Forward-Looking
Multiroom Video System"**

AUSTIN, Texas, – January 16, 2008 – *NetStreams*™, the global leader in networked A/V distribution based on Internet Protocol (IP), has announced that its DigiLinX Audio, Video & Control system has won a *Perfect Vision's* Editor's Choice Award in the Emerging Technology category. Named as the "Most Forward-Looking Multiroom Video System," DigiLinX delivers uncompressed, high-quality audio and video (HD) distribution, as well as full control over a CAT5 network.

"We are honored by this recognition. It validates our solution's ability to deliver the best audio, video, and control quality over TCP/IP", said Kevin Reinis, President and CEO of *NetStreams*. "DigiLinX and *NetStreams* IP-Based technology are consistently recognized as a groundbreaking product by independent authorities in audio and video."

The magazine's editors picked the very best A/V equipment of 2007, out of the more than 200 products they reviewed over the year, including Apple TV and Apple iPhone.

Unlike traditional analog systems, DigiLinX's capacity to deliver the ultimate audio and video performance over an IP network, combined with its' simple, cost-effective installation and operation in an open source architecture, with little to no programming required, sets it apart from other award winners.

- more -

NetStreams' DigiLinX IP Audio, Video and Control system is the first Multi-Room A/V system to deliver uncompressed, high definition audio and video to multiple rooms throughout a home over a TCP/IP network, marking an industry first for high quality audio and video distribution over an IP network. *NetStreams'* *StreamNet* technology provides an end-to-end all digital solution with A/V signal synchronization, automatic device discovery and configuration, remote access for control, and software upgrades, insuring the flawless synchronization of audio and video throughout.

About *NetStreams*

Headquartered in Austin, Texas, *NetStreams* is the world leader in IP Audio, Video and Control products. *NetStreams'* products are designed for residential and commercial use and offer new levels of affordability, simplicity, reliability, and expandability, benefiting both installers and end-users with lower costs for installation and set-up, and an intuitive and rich user experience.
