

# DIGILINX™

## IN YOUR HOME

Control your DigiLinX Multi-Room Audio and Control system using the TouchLinX.

Control your DigiLinX Multi-Room Audio and Control system using a PC.

Dock your iPod® in an iPort™ and have all songs immediately available for whole house listening.

Connect your ControlLinX for control over any compatible third party device such as Lutron® lighting, Aprilaire® heating and cooling systems, and more.

Mount a SpeakerLinX in a wall with the In-Wall Mounting kit.

Connect your IP camera and view the feed on the TouchLinX, on a PC, or on a wireless web tablet.

Mount a SpeakerLinX in the wall, above the ceiling or at speaker location.

Control your DigiLinX Multi-Room Audio and Control system using a wireless tablet PC.

Use the Audio Port to connect a CD, TV, or other source for playback in a local room or over the system.

SwitchLinX™ 24-port Ethernet Switch reliably manages your home entertainment network.

MediaLinX™ automatically converts your CD player, cassette, LP player, or other audio sources.

PowerLinX™ central power supplies power for your DigiLinX system.

StreamNet-enabled music servers provide the ultimate audio experience.
